

## I Try

[Hook]

**I try sometimes I fail  
Now I realize I need your help  
'Cause I can't make it all by myself  
I need You, You, You, You**

I should know by now there's no way no  
How could I live my life without You  
Still I get caught up in myself  
And talk to You less and less  
And every time that I do  
I come right back to You  
Cause after all my mistakes  
I know that I have to change  
So I put my life in Your hands

[Hook]

I wish I could undo some things that  
I have done in my past  
But I can't erase what's already  
Taken place  
So from now on I'll try to do my best  
Cause after all my mistakes  
I know that I have to change  
So I put my life in Your hands

[Hook]

Nobody wants to fall but we fall sometimes  
Then You are there to catch us all every time  
You look beyond all my faults  
'Cause You know I need  
Another chance to get it right  
You forgive me 'cause I try

[Hook]
